Bianchi

ENGINEERED WITH  COUNTERVAIL®

COUNTERVAIL®

VIBRATIONS

ONE TECHNOLOGY, TUNED FOR EVERY NEED.

BIANCHI CV INTEGRATED VIBRATION CANCELLING SYSTEM

Bianchi collaborated with **Materials Sciences Corporation** to develop our innovative and exclusive use of the MSC's patented **Countervail®** integrated vibration cancelling system for cycling. Countervail® is a patented carbon material with a unique fiber architecture and viscoelastic resin that cancels **80%** of vibrations while increasing the stiffness and strength of our carbon frames and forks. Countervail® is embedded within the layup of **Bianchi CV** high-performance models.

PROVEN IN NASA AEROSPACE OPERATIONS

Traditional passive damping in frames using superficial rubber inserts and isolators are marginally effective compared to the integrated carbon Countervail® system developed by Bianchi for cycling and proven in the extreme conditions of **NASA** aerospace operations.

Bikes with this technology:

Specialissima, Oltre XR4, Oltre XR3, Infinito CV, Aquila CV, Methanol CV RS, Methanol CV S /

TAILOR-MADE PROGRAM

AVAILABLE FOR **OLTRE XR4, XR4 DISC, SPECIALISSIMA** AND NOW **AQUILA CV** AND **METHANOL CV RS**.

Bianchi Tavolozza is the exclusive web color configurator available for Bianchi CV models engineered with Countervail vibration cancelling technology. All frames personalized with Tavolozza color configurator, including graphics and logos, are hand-painted and decaled in Italy by expert craftsmen, combining Bianchi's timeless skills of tailoring together with advanced technologies.

www.bianchi.com/tavolozza

USER-FRIENDLY AND CREATIVE TAILOR-MADE PROGRAM

By entering www.bianchi.com/tavolozza, you can easily design your own project in a few clicks, meeting any wish. Tavolozza offers an infinity of possible combinations.

FAST AND SOCIAL

After creating the ideal layout for your frame, you can save and download the project, identified by a unique code. Thanks to the online dealer locator, you can find the nearest Bianchi authorized dealer where to order the custom-painted bike.

Tavolozza also gives you the opportunity to immediately share your own project on Facebook.

ROAD TECHNOLOGIES

TRIPLE HYDROFORMED TECHNOLOGY

Hydroforming process of the top and head tubes

Top and head tubes are welded and then fused together into a monocoque structure

Final hydroforming process

Bikes with this technology:
ALL IMPULSO

ADVANTAGES

- Increased rigidity
- Maximized design
- Reduced fatigue

▲BAT▼ K-VID

To obtain different stiffness behaviour under different directional forces, without wasting power transfer

Special lay-up and different material combination (CARBON - KEVLAR)

Special design

Bikes with this technology:
INFINITO CV (only BAT)
INTENSO / IMPULSO / VIA NIRONE 7

ADVANTAGES

- Increased shock absorption
- Best adherence
- Reduced fatigue

ROAD DISC BRAKE SYSTEM

Bianchi designs every disc brake model with road bikes specific thru axle. Oltre XR4, Oltre XR3, Aria, Infinito CV, Impulso Allroad, Aria E-Road, Impulso E-Road, E-Allroad and Edoardo have 12 x 100/142mm thru axle with quick release lever. Endurance carbon frame Intenso Disc features a lightweight (only 31gr.) 12 x 100/135mm thru axle with removable QR system

Bikes with this technology:

OLTRE XR4 / OLTRE XR3 / ARIA / INFINITO CV / INTENSO / IMPULSO ALLROAD / VIA NIRONE 7 ALLROAD (only front TA) / **ARIA E-ROAD / IMPULSO E-ROAD / E-ALLROAD** (E-Road) / **EDOARDO** (E-Sport)

UTSS ULTRA THIN SEAT STAY

Improved shock absorption and impact resistance

Reduced frame weight

Power transmission is now focused through the chain stays, leaving the seat stays as a compliant support structure

Bikes with this technology:
OLTRE XR3 / SEMPRE PRO

ADVANTAGES

- Increased shock absorption
- Best adherence
- Reduced fatigue

MTB TECHNOLOGIES

Reinforcement carbon ribs embedded into the main tube profiles torsional stiffness of the head tube and the Bottom Bracket area. The crank-frame interface becomes stronger

Bikes with this technology:
METHANOL FS

ADVANTAGES

Increased torsional rigidity

Optimized rear stays design to obtain a very compact and reactive rear triangle without sacrificing on chainline clearance. It fits different chainrings combinations and it is optimized to improve power transmission on the driveside

Bikes with this technology:
ALL METHANOL

ADVANTAGES

Increased power reactivity
Increased pedalling performance

BOOST STANDARD 148/141

Boost is a new wheel and drivetrain specification

Increased wheel stiffness and durability

Better riding efficiency and bike handling precision

Improved frame geometry with shorter chain stays

Wilder range of chainring options

More clearance for bigger tires

148

Bikes with this technology:
**METHANOL CV RS / METHANOL CV S /
NITRON / GRIZZLY 9.1 /
AVENGER FS (E-MTB) / AVENGER HT (E-MTB)**

141

Bikes with this technology:
GRIZZLY 9.2 / GRIZZLY 9.3 / MAGMA

BIANCHI PRODUCT DEVELOPMENT

01 IDEA

Ideas are the seeds of our continuous innovation process, together with a mix of intuitions, Italian creativity, experience and attention to details.

03 3D

We are expert in frame design and technology. We believe the frame is the heart of the bicycle.

02 GEOMETRIES

We offer dedicated geometries for all type of riding and different performance. Bianchi is widely known for its race proven geometries.

04 RAPID PROTOTYPING

Thanks to our Rapid Prototype Machine we can create and assemble, in house, a resin prototype of every model so that we can check the shape and final look of the frame before starting final production.

05 GRAPHICS

All graphics and color combinations are created by our creative designers, in Treviglio.

07 ROAD TEST

Our team of professional test riders and former pro-cyclists is constantly testing all new products collecting and providing important feedbacks to our engineers with the aim to produce the best bikes in the world.

06 LAB TEST

All frames are developed and tested inside the Bianchi headquarters in Treviglio (Bergamo, Italy) with innovative and dedicated machines.

08 ASSEMBLY PROCESS

We have a unique individual vertical assembly process: each bicycle is built by one person.

RACING

Ride beyond limits. The Racing category includes extreme racing performance carbon frames, optimized to achieve the most efficient power transmission with the best rigidity to weight ratio. The ideal bikes for the most expert riders.

E-BIKES

Unlike a conventional bicycle which relies purely on your efforts, a Bianchi e-bike gives you powered pedal assistance up to speeds of 25kph. You choose your desired level of assistance as you pedal, from gentle right through to intense, depending on how you wish to ride. And you win every way.

Whether you're an urban commuter, holiday traveller, returning rider, or a serious cyclist with road or mountain ambitions, there's a Bianchi e-bike that's just right for you.
