Bianchi

CV

ENGINEERED WITH

 **COUNTERVAIL®**

ONE TECHNOLOGY, TUNED FOR EVERY NEED.

BIANCHI CV INTEGRATED VIBRATION CANCELLING SYSTEM

Bianchi collaborated with Materials Sciences Corporations to develop our innovative and exclusive use of the MSC's patented Countervail® integrated vibration cancelling system for cycling. Countervail® is a patented carbon material with a unique fiber architecture and viscoelastic resin that cancels 80% of vibrations while increasing the stiffness and strenght of our Methanol CV carbon frame. Countervail is embedded within the layup of Bianchi CV high-performance models.

PROVEN IN NASA AEROSPACE OPERATIONS

Traditional passive damping in frames using superficial rubber inserts and isolators are marginally effective compared to the integrated carbon Countervail® system developed by Bianchi for cycling and proven in the extreme conditions of NASA aerospace operations.

Bike with this technology: **Methanol CV RS, Methanol CV S**

AFTER SHOCK CONTROL

OPTIMIZED TO OUTPERFORM

Engineered with Bianchi CV System, using Countervail®'s unique carbon fiber architecture and viscoelastic resin, Methanol CV RS and S deliver total "After-Shock Control" by eliminating vibrations that pass through the suspension after impact and from trail buzz. "After-Shock Control" delivers an entirely new level of ride quality, with increased accuracy, reduced muscular fatigue and total performance.

REDUCED FATIGUE

Bianchi CV System reduces vibration and dissipates trail buzz more quickly and more effectively than any other material technology – 80% more. Less trail vibrations reach you, reducing muscular fatigue so you've more energy to attack the trails a significant performance advantage.

DEVELOPED IN
COOPERATION WITH
TEAM BIANCHI
COUNTERVAIL

GREATER TRAIL CONTROL

Improved traction delivers more control under braking, sprinting, cornering, climbing and beyond.

MAXIMUM POWER DELIVERY

Countervail® frame, wide-stanced bb92 bottom bracket and short chainstays combine to create an optimally stiff and direct pedalling platform for maximum power transfer.

By entering www.bianchi.com/tavolozza, you can easily design your own project in a few clicks, meeting any wish. Tavolozza offers an infinity of possible combinations.

TAILOR-MADE PROGRAM AVAILABLE FOR METHANOL CV RS

XC CROSS COUNTRY

Fast, light and aggressive. Our Cross Country bikes are designed to offer optimal performance for professional racers and anyone who wants to enjoy a thrilling ride in the woods. The XC Bianchi frames are built to offer maximum power transfer combined with stability and precise handling.
